

JALISCO MARKET

WORKING TOGETHER WITH OUR COMMUNITY

Jalisco Market was opened with the community in mind. We wanted to offer our neighbors quality products at great prices, and, thanks to our team's hard work, we have become the neighbor's favorite supermarket.

We are not a large chain, that gives us the opportunity to take better care of our clientele by identifying their preferences and needs in a more personalized way.

Jalisco Market takes its commitment with the community very seriously, that is why during these unprecedented times we have raised our hands to help.

We have developed a plan to serve our individual and business customers with quality products at great prices and at the same time, share our profit with our local Schools, Churches, Charitable Organizations and other nonprofits.

How the program works:

Business or individual customers buy in our store or on-line.

We have Bakery, Meat, Food, Grocery, Deli and Produce Departments to cater any need.

Customers inform our cashier or choose in on-line store their favorite organization or the organization they belong to.

We register the purchase in the organization's profile.

We share 3% profit of all purchases assigned to the organization.

This is the sum of all client's purchases identified with their favorite organization or the organization they belong to.

The more customers buy, the more each organization will receive.

Please contact our promotions team and ask how to participate. We will be very happy to be of service. (702)604-0098.
